An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stefan Koschmieder on September 21, 2004.

The application has been amended as follows:

Claim 21, line 2, change "a" to "an inkjet".

Claim 21, last line, before the period, insert ", wherein the hydrophobic filler has a carbon content of from 0.1 to 5% by weight".

Claim 22, last line, before the period, insert ", wherein the hydrophobic filler has a carbon content of from 0.1 to 5% by weight".

The restriction and species election are hereby withdrawn. Withdrawn claims have been rejoined.

### ***Claim Interpretation***

With respect to claim 13, applicants are advised that it must further limit claim 1 and is being interpreted as follows: All naturally occurring pigment species recited in the Markush group in this claim must silicates. Any claimed species that is not a silicate must be limited to its synthetic form.

The following is an examiner's statement of reasons for allowance:

The prior art of record, either alone or in combination, fails to anticipate or render obvious the herein claimed inkjet coating composition comprising a binder and specific hydrophobic fillers that have a carbon content from 0.1 to 5% by weight. The examiner considers applicants' arguments regarding the term "inkjet" to be convincing and that "the presence of this term in the preamble of the claims serves to limit the coating compositions to compositions coated onto substrates that accept inks imparted onto the substrate through an inkjet process".

Applicants should note that claim 20 and rejoined claims 21 and 22 have been considered to invoke the sixth paragraph of 35 USC 112. Accordingly, means for binding and means for render the particle hydrophobic are considered to be limited to those set forth in the instant specification and obvious variants.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth D. Wood whose telephone number is 571-272-1377. The examiner can normally be reached on M-F, 5:30-2:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Bell can be reached on 571-272-1364. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
